Teaching methods are based on a communicative approach of French as a foreign language with the focus on the acquisition of the following skills: expression and comprehension, both written and oral. The objective is to provide knowledge of French language and culture in French speaking countries through communication in real situations.

As a student, you will be responsible for half of your progression; personal work in addition to class attendance is of course necessary.

English is used, even for complete beginners. Yet, after only a few hours, the students quickly master enough elementary French to exchange with their Instructor.

ATTENDANCE

Attendance requirements are governed by the Academic Regulations Governing Bachelor's Degree Programmes of the Macao Polytechnic University. Students who do not meet the attendance requirements for the learning module shall be awarded an 'F' grade.
