

**FACULTY OF HEALTH SCIENCES AND SPORTS**  
**BACHELOR OF SCIENCE IN BIOMEDICAL TECHNOLOGY**  
**(PHARMACY TECHNOLOGY)**

**LEARNING MODULE OUTLINE**

Academic Year	2023-2024	Semester	II
Module Code	BSRM3102		
Learning Module	Research Methods		
Pre-requisite(s)	Nil		
Medium of Instruction	Chinese & English		
Credits	4	Contact Hours	60
Instructor	Grace, Meng Li Rong	Email	<a href="mailto:lrMeng@mpu.edu.mo">lrMeng@mpu.edu.mo</a>
Office	M726, Meng Tak Building	Office Phone	85993449

**MODULE DESCRIPTION**

This 60-hour course aims to improve the understanding of students in healthcare research with emphasis on the concept of scientific investigation; experimental design; research project planning; data measurement and collection; qualitative and quantitative data analysis; research proposal and poster creation; the basic concepts of ethical issues in scientific and medical research; research utilization and evidence based practice. This course also prepares students for writing thesis, medical articles and research papers.

**MODULE INTENDED LEARNING OUTCOMES (ILOS)**

On completion of this learning module, students will be able to:

M1.	Understand the purpose and concepts of medical research.
M2.	Propose and implement research project.
M3.	Analysis and Interpret research results.
M4.	Evaluate research articles.
M5.	Understand of basic concepts in research utilization and evidence based practice.
M6.	Write research reports and thesis.

These ILOs aims to enable students to attain the following Programme Intended Learning Outcomes (PILOs):

PILOs	M1	M2	M3	M4	M5	M6
P1. To demonstrate understanding of a range of subjects, fields, principles and approaches relevant to medical laboratory technology	✓	✓	✓	✓	✓	✓
P2. To demonstrate understanding of theories, analytical approaches and practices that underpin medical laboratory operations and management	✓	✓	✓	✓	✓	✓
P3. To demonstrate understanding of major trends and issues related to medical laboratory technology	✓	✓	✓	✓	✓	✓
P4. To apply professional knowledge and skills to analyse, interpret and solve problems, challenges and risks in medical laboratory practice	✓	✓	✓	✓	✓	✓
P5. To critically appraise and interpret scientific and clinical literature and apply evidence-based practice	✓	✓	✓	✓	✓	✓
P6. To acquire and apply research skills in medical laboratory technology	✓	✓	✓	✓	✓	✓
P7. To demonstrate effective communication and teamwork skills	✓	✓	✓	✓	✓	✓
P8. To maintain professional and ethical standards in medical laboratory practice and research	✓	✓	✓	✓	✓	✓

#### MODULE SCHEDULE, COVERAGE AND STUDY LOAD

Week	Content Coverage	Contact Hours
1	<ol style="list-style-type: none"><li>1. Subject introduction -2 hours<ol style="list-style-type: none"><li>1.1 Academic research</li><li>1.2 Key terms in research</li><li>1.3 Dimensions of research</li><li>1.4 General research process</li><li>1.5 Key challenges of conducting research</li></ol></li><li>2. Basic concepts in research -2 hours<ol style="list-style-type: none"><li>2.1 Topic</li><li>2.2 Research problems</li><li>2.3 Research questions</li><li>2.4 Hypotheses</li><li>2.5 Statement of purpose</li><li>2.6 Aims and objectives</li></ol></li><li>3. Research ideas -3 hours<ol style="list-style-type: none"><li>3.1 Source of research ideas</li><li>3.2 Global health agendas</li></ol></li></ol>	7
2	<ol style="list-style-type: none"><li>4. Development of research problems -3 hours<ol style="list-style-type: none"><li>4.1 Significance of the problems</li><li>4.2 Researchability of the problem</li><li>4.3 Time and timing</li></ol></li></ol>	7

	<ul style="list-style-type: none"> <li>4.4 Availability of study participants</li> <li>4.5 Co-operation</li> <li>4.6 Facilities and equipment</li> <li>4.7 Cost</li> <li>4.8 Experience of the researcher</li> <li>4.9 Case studies and group exercises</li> </ul> <p>5. 8	<ul style="list-style-type: none"> <li>16. Research proposal -10 hours               <ul style="list-style-type: none"> <li>16.1 Aims of proposal</li> <li>16.2 Funding application</li> <li>16.3 Content and format of proposal</li> <li>16.4 Tips on successful proposal</li> </ul> </li> </ul>	10
9	<ul style="list-style-type: none"> <li>17. Oral defense (4 hours--Grace)</li> </ul>	4

## TEACHING AND LEARNING ACTIVITIES

In this learning module, students will work towards attaining the ILOs through the following teaching and learning activities:

Teaching and Learning Activities	M1	M2	M3	M4	M5	M6
T1. Lectures and videos	✓	✓	✓	✓	✓	✓
T2. Group discussion	✓	✓	✓	✓	✓	✓
T3. Oral defense	✓	✓	✓	✓	✓	✓

Attendance requirements are governed by the Academic Regulations Governing Bachelor's Degree Programmes of the Macao Polytechnic University. Students who do not meet the attendance requirements for the learning module shall be awarded an 'F' grade.

## ASSESSMENT

In this learning module, students are required to complete the following assessment activities:

Assessment Activities	Weighting (%)	ILOs to be Assessed
A1. Group reports	40%	M1-M6
A2. Proposal and oral defense	60%	M1-M6

This learning module is graded on a 100 point scale, with 100 being the highest possible score and 50 being the passing score.

Any students scoring less than 35% of the total mark in the final examination will be given an "F" grade for the module even if the overall grade is 50% or higher.

The assessment will be conducted following the University's Assessment Strategy (see [www.mpu.edu.mo/teaching\\_learning/en/assessment\\_strategy.php](http://www.mpu.edu.mo/teaching_learning/en/assessment_strategy.php)). Passing this learning module indicates that students will have attained the ILOs of this learning module and thus acquired its credits.

## MARKING SCHEME

Marks Ranges	Grade	Grade Point	Grade Definitions**
93–100	A	4.0	Excellent
88 – 92	A-	3.7	
83 – 87	B+	3.3	Very Good
78–82	B	3.0	Good
73 – 77	B-	2.7	
68–72	C+	2.3	Satisfactory
63–67	C	2.0	
58 – 62	C-	1.7	

53 – 57	D+	1.3	Passed
50 – 52	D	1.0	
0 – 49	F	0	Failed

## REQUIRED READINGS

## STUDENT FEEDBACK

At the end of every semester, students are invited to provide feedback on the learning module and the teaching arrangement through questionnaires. Your feedback is valuable for instructors to enhance the module and its delivery for future students. The instructor and programme coordinators will consider all feedback and respond with actions formally in the annual programme review.

## ACADEMIC INTEGRITY

The Macao Polytechnic University requires students to have full commitment to academic integrity when engaging in research and academic activities. Violations of academic integrity, which include but are not limited to plagiarism, collusion, fabrication or falsification, repeated use of assignments and cheating in examinations, are considered as serious academic offenses and may lead to disciplinary actions. Students should read the relevant regulations and guidelines in the Student Handbook which is distributed upon the admission into the University, a copy of which can also be found at [www.mpu.edu.mo/student\\_handbook/](http://www.mpu.edu.mo/student_handbook/).
