**MODULE DESCRIPTION**

The primary focus of this module is to increase students' size of vocabulary and improve their grammatical accuracy from lower intermediate (B1) to intermediate (B1, B2) level. The module focuses on how words and grammar are used in context and how changes in grammatical forms may change the meaning. Students should learn how to guess the meaning of words from context and to see how parts of speech can affect the grammatical structure of a sentence. Students not only learn words and different topics on grammar, but also put what they have learned into practice.

**MODULE INTENDED LEARNING OUTCOMES (ILOS)**

On completion of this learning module, students will be able to:

M1.	recognize and understand the target vocabulary upon hearing or reading them. The vocabulary to be assessed in the module will be derived from the New General Service List (Browne, et al, 2013);
M2.	use various resources to learn and expand one's size of vocabulary;
M3.	monitor one's language output (both spoken and written) with one's knowledge of grammar;
M4.	identify and correct grammatical errors (semantic) which grammar checkers might not be able to pick up; and
