Description

The objective of the internship are the followings:

1. Clinical placement of medical-surgical nursing II includes six core learning abilities. They are namely knowledge application, creativity, communication, ethics, teamwork and acceptance. To define the level standard requirements that each student should meet the MPI grade.
2. Clarify the roles and function of the nurses working.
3. Apply the learned knowledge and skills to nursing practice.
4. Work with the other health providers and develop a collaborative working relationship with them.
5. Through practical training, students are instilled with safety concepts and are trained with certain professional skills.

6. Students are educated to be: friendly, orderly, punctual, responsible, team spirited, tidy and honest etc., and subjected to nursing professional conducts.

Learning Outcomes

After completing the learning module, students will be able to:

1. Describe the structure, functions and working routines at internship units.
2. Clarify the roles and function of the nurses working.
3. Respect the clients, protect their privacy, and communicate with the clients effectively in different society culture background.
4. Describe the etiology, clinical manifestation, treatment, the therapeutic effect, mechanism, and dosage of drugs commonly for common medical and surgical diseases.
5. Conduct health assessment (including patient identification, symptom assessment, physical examination and history inquire), and complete a record correctly.
6. Monitor the client's condition correctly, recognize and timely report the abnormal signs, and explain the causes for abnormal signs.
7. Observe aseptic technique, regular surgery and anesthesia in Operation Room.
8. Prepare the client for the operation correctly; participate in informed consent before surgery and patient education after surgery.
9. Practice common nursing procedures skillfully.
10. Under the instructions of school teacher and clinical preceptor, make the nursing plan, implement nursing procedure, and evaluate the client's response. Write nursing records and present report.
11. Apply the learned knowledge and skills; perform health education for clients and their families.

Practice (240 hours)

Content

- 1 Medical & Surgical Unit (240 hours)
 - 1.1 Conduct health assessment and practice nursing procedures skillfully.
 - 1.2 Manage 2-5 cases under clinical preceptors' guidance.
 - 1.3 Assess clients, make the nursing plan, implement nursing procedure, and evaluate the client's response.
 - 1.4 Describe the therapeutic effect, mechanism, and dosage of drugs commonly used in practice, and observe their efficacy and side effects.
 - 1.5 Prepare the client for the operation correctly; participate in informed consent before surgery and patient education after surgery.
 - 1.6 Write individual learning objectives.
 - 1.7 Write individual nursing case study.(MASTER: The students can master the operation skills in clinical placement.)

Teaching Method

Demonstration, Clinical practices, team work, group discussion, critical thinking, peer learning.

Attendance

1. Students must sign in the attendance record during the placement.
2. Students must participate in all the clinical placements arranged by the Faculty. Clinical placement takes totally 40 hours weekly. Only when a student attends 90% or above of a placement, he/she will be eligible for assessment for that placement.

Assessment

If a student's unit score is graded less than 50% or the score of professional attitude is graded ≤ 12 , both the unit and subject score would be failed.

Assessment Criteria and Scores

Parts	Assessment Criteria	Assessor	Scores
Pre-Clinical Nursing Skill Examination	<ul style="list-style-type: none">• Students who pass the PCNSE are allowed to attend the related clinical placement.	School Teacher	10%
Attendance	<ul style="list-style-type: none">• Full attendance of each week.• Absent with valid reason and documentary proof (scores to be deducted proportionally).• Absent for 1 day without valid reason nor documentary proof (0%)	Attendance to be monitored by School Teacher and Clinical Preceptor	5%
Assignment	<ul style="list-style-type: none">• Nursing Case study	School Teacher	25%
Clinical Assessment	Teacher & Preceptor Assessment <ul style="list-style-type: none">• Give a score according to assessment criteria. Professional Attitude of Assessment Form being graded ≤ 12 score, the clinical performance of that unit is "failed" score.	School Teacher	20%
		Clinical Preceptor	40%
Score:			100%

Clinical Assignment

Clinical Placement (Medical-Surgical Nursing II) Clinical Assignments

In “Clinical Placement (Medical-Surgical Nursing II)”, students are required to write a nursing care study. Details are as follows:

Title of Assignment	Nursing Case Study
Words limit ($\pm 10\%$)	2500 - 3500 words (not including the cover, references list and appendices)
Due date	The last day of Clinical Placement

Assignment requirements

Before the end of the Clinical Placement, the student selects a client with a specific health problem and conducts the nursing process. The student writes the ‘Nursing Care Study’ accordingly. The contents should relate to the student’s own clinical experience. It should be submitted to the School Teacher. The Guidance for Written Assignments should be followed. Either Chinese or English could be used for this assignment. Marking scheme is as follows:

Nursing Case Study

評核範圍 Areas of Assessment	評核準則 Marking criteria	比重 Weighting	得分 Score
1. 前言(5%) Introduction	<ul style="list-style-type: none"> • 明確說明報告之背景，有明確的學習目標和動機 	Describe clearly the background and learning objectives of the assignment 5%	
2. 文獻探討 Literature Review 2.1 病因或危險因素 Etiology or risk factors (3%) 2.2 臨床表現 Clinical features (2%)	<ul style="list-style-type: none"> • 資料完整 • 最新知識 • 具批判性 	Complete information Most updated information Being critical 5%	
3. 護理過程 Nursing process 3.1 基本資料及個案疾病史(5%) Basic information and health history 3.2 病情及治療 (15%) Conditions of the illness and current therapeutic measures 3.3 戈登11項健康評估與護理診斷 Health assessment using Gordon's 11 Functional Health Patterns (15%), state all nursing diagnoses (5%) 3.4 護理計劃(30%) Nursing care plan, include nursing diagnoses, objectives, intervention and evaluation.	<ul style="list-style-type: none"> • 基本資料齊全 • 記錄完整、清晰 • 總結現有病情與治療要點 • 給藥方法、藥理機制、副作用、藥物護理 • 評估內容完整及清晰 • 提出所有護理診斷，並按優先排序 • 能按病者整體需要而訂立個人化護理計劃 • 將排序最優先的2個護理診斷寫成護理計劃，計劃完整、可行 • 每個護理診斷至少寫出8項護理措施 • 結合目標進行評價，評價符合邏輯 	Comprehensive information Complete and clear recording data Summarize conditions of the illness and therapy Complete data, methods, pharmacodynamics, side-effects and nursing Complete and clear assessment data Write down all nursing diagnoses and take precedence Individualized care plan meeting client's holistic needs Write nursing plan related to the top 2 priority nursing diagnoses, with a complete and feasible plan At least 8 interventions for each nursing diagnose Logical evaluation based on the nursing objectives 70%	
4. 總結 Conclusion 4.1 反思臨床經驗、個人及專業能力成長 Reflection on clinical experience, personal competence and professional development	<ul style="list-style-type: none"> • 有深刻體會及反思 • 對影響臨床經驗之因素有合理分析 	Deep reflection Rational analysis of factors affecting the clinical experience 7%	
5. 參考資料之應用 Use of references	<ul style="list-style-type: none"> • 最少參考三篇來自專業學術期刊的文獻 (3%) • 文中註明引文出處、格式正確 (2%) • 編寫參考文獻之格式正確 (3%) 	At least 3 pieces of literature from professional journals Proper acknowledgement of sources Accurate format of citations, quotations, and listing references used 8%	
6. 文筆 Style of writing	<ul style="list-style-type: none"> • 組織恰當 • 用詞簡潔而意義清晰 • 不常用之縮寫均清楚交代 • 傳意能力強 	Appropriate organization Concise writing, clear meaning Proper explanation of unusual abbreviations Communicative 5%
