MODULE DESCRIPTION 學科單元/科目概述

This subject facilitates students to be prepared the following graduate attributes:

Through the completion of clinical placement, students are expected to consolidate with the attributes of knowledge application, creativity, communication, ethics, teamwork and acceptance. Students will develop their independent competences to provide appropriate and evidence-based nursing care with the application of the learned theoretical knowledge and nursing skills to clients under supervision of clinical preceptors. Students are expected to apply nursing process to perform holistic nursing care to different clients. In addition, students should be able to follow the code of ethics of medical professionals and perform suitable professional conducts during practice.

MODULE INTENDED LEARNING OUTCOMES (ILOS) 學科單元/科目預期學習成效

On completion of this learning module, students will be able to:

M1.	Demonstrate the familiarity of the internship department by participating the routine services workflow appropriately.
M2.	Apply nursing process to perform holistic nursing cares to individuals, families, and the public, with learned knowledge and therapeutic skills.
M3.	Demonstrate the abilities of performing patient safety in the routine nursing practice.
M4.	Develop and implement the nursing practice to clients with nursing care plans.
M5.	Demonstrate effective oral and written communication with both clients and medical teams, in order to facilitate safe, trust, and quality working environment.

These ILOs aims to enable students to attain the following Programme Intended Learning Outcomes (PILOs):

The PILOs are aligned with the Dublin descriptors, including knowledge and understanding, acquisition, application, critical judgment, communication skills, and learning skills/ability.

ATTENDANCE

Attendance requirements are governed by the Academic Regulations Governing Bachelor's Degree Programmes of the Macao Polytechnic University. Students who do not meet the attendance requirements for the learning module shall be awarded an 'F' grade. Clinical placement takes a total of 40 hours weekly. Only when a student attends 90% or above of a placement, he/she will be eligible for assessment for that placement.

ASSESSMENT

This learning module is graded on a 100-point scale, with 100 being the highest possible score and 50 being the passing score.

In this learning module, students are required to complete the following assessment activities:

Assessment Activities	Weighting (%)	ILOs to be Assessed (M1,M2,M3,M4,M5)
A1. Pre-Clinical Nursing Skill Examination	10%	M2, M3
A2. Attendance	5%	M1
A3. Assignment	20%	M4
A4. ISBAR Assessment	5%	M5
A5. Clinical Assessment	60%	M1,M2,M3

The assessment will be conducted following the University's Assessment Strategy (see www.mpu.edu.mo/teaching_learning/en/assessment_strategy.php). Passing this learning module indicates that students will have attained the ILOs of this learning module and thus acquired its credits.

STUDENT FEEDBACK

At the end of each semester, students are invited to provide feedback on the learning module and the teaching arrangement through questionnaires. Your feedback is valuable for instructors to enhance the module and its delivery for future students. The instructor and programme coordinators will consider all feedback and respond with actions formally in the annual programme review.

ACADEMIC INTEGRITY

The Macao Polytechnic University requires students to have full commitment to academic integrity when engaging in research and academic activities. Violations of academic integrity, which include but are not limited to plagiarism, collusion, fabrication or falsification, repeated use of assignments and cheating in examinations, are considered as serious academic offenses and may lead to disciplinary actions. Students should read the relevant regulations and guidelines in the Student Handbook which is distributed upon the admission into the University, a copy of which can also be found at www.mpu.edu.mo/student_handbook/.
