MODULE DESCRIPTION

This subject facilitates students to be prepared for the following graduate attributes:

Through the completion of clinical placements, students are expected to consolidate their abilities in knowledge application, creativity, communication, ethics, teamwork, and acceptance. Students will develop their independent competencies to provide appropriate and evidence-based nursing care by applying the theoretical knowledge and nursing skills learned, under the supervision of clinical preceptors. Students are expected to utilise the nursing process to deliver holistic care to various clients. In addition, students should adhere to the medical professionals' code of ethics and conduct themselves appropriately during practice.

MODULE INTENDED LEARNING OUTCOMES (ILOS)

On completion of this learning module, students will be able to:

M1.	Demonstrate the familiarity of the internship department by participating in the routine services workflow appropriately.
M2.	Apply the nursing process to perform holistic nursing care to individuals, families, and the public, with learned knowledge and therapeutic skills.
M3.	Demonstrate the ability to perform patient safety in routine nursing practice.
M4.	Develop and implement the nursing practice for clients with nursing care plans.
M5.	Demonstrate effective oral and written communication with both clients and medical teams, in order to facilitate a safe, trusting, and quality working environment.
M6.	Demonstrate the ability to integrate evidence-based practice into routine nursing care, ensuring

that the latest research and best practices inform all actions.

These ILOs aims to enable students to attain the following Programme Intended Learning Outcomes (PILOs):

The PILOs are aligned with the Dublin descriptors, including knowledge and understanding, acquisition, application, critical judgment, communication skills, and learning skills/ability.

PILOs	M1	M2	M3	M4	M5	M6
P1. Demonstrate an understanding of the holistic nature of the clients' health status involving individual, family, and community aspects.	✓		✓	✓		✓
P2. Demonstrate effective communication skills and the ability to establish and maintain a therapeutic relationship with clients.		✓		✓	✓	
P3. Demonstrate acquisition, mastery, and application of knowledge and skills for nursing practice, including biological sciences, social sciences and humanities, by making appropriate clinical reasoning and performing safe and therapeutic practice.		✓	✓	✓		✓
P4. Demonstrate the ability to maintain legal and ethical standards of nursing practice.	✓		✓		✓	
P5. Demonstrate the ability to carry out relevant research and contribute to the community's health.			✓		✓	✓
P6. Work effectively and efficiently alone or in teams.			✓	✓	✓	
P7. Demonstrate the ability to identify and evaluate health care issues.	✓		✓	✓		✓
P8. Demonstrate a critical judgment and apply the principles of evidence-based practice to deliver nursing care.				✓		✓

ATTENDANCE

Attendance requirements are governed by the Academic Regulations Governing Bachelor's Degree Programmes of the Macao Polytechnic University. Students who do not meet the attendance requirements for the learning module shall be awarded an 'F' grade.

ASSESSMENT

This learning module is graded on a 100-point scale, with 100 being the highest possible score and 50 being the passing score.

In this learning module, students are required to complete the following assessment activities:

Assessment Activities	Weighting (%)	ILOs to be Assessed (M1,M2,M3,M4,M5,M6....)
A1. Pre-Clinical Nursing Skill Examination	10%	M2, M3
A2. Attendance	5%	M1
A3. Assignment	20%	M4
A4. ISBAR Assessment	5%	M5
A5. Clinical Assessment	60%	M1,M2,M3

The assessment will be conducted following the University's Assessment Strategy (see www.mpu.edu.mo/teaching_learning/en/assessment_strategy.php). Passing this learning module indicates that students will have attained the ILOs of this learning module and thus acquired its credits.

STUDENT FEEDBACK

At the end of each semester, students are invited to provide feedback on the learning module and the teaching arrangement through questionnaires. Your feedback is valuable for instructors to enhance the module and its delivery for future students. The instructor and programme coordinators will consider all feedback and respond with actions formally in the annual programme review.

ACADEMIC INTEGRITY

The Macao Polytechnic University requires students to have full commitment to academic integrity when engaging in research and academic activities. Violations of academic integrity, which include but are not limited to plagiarism, collusion, fabrication or falsification, repeated use of assignments and cheating in examinations, are considered as serious academic offenses and may lead to disciplinary actions. Students should read the relevant regulations and guidelines in the Student Handbook which is distributed upon the admission into the University, a copy of which can also be found at www.mpu.edu.mo/student_handbook/.
